# WHAT'S IT ALL ABOUT?

Striving as a communicator is a two-way journey. First, we address whatever inner blocks come through in our performance and thought patterns.

Then, we sculpt presentation and communication skills to the highest level.

**Speak with impact to make a difference.**

# SUCCESS FORMULA

## THE JOURNEY IN

We begin with a full assessment of your non-verbal communication and its relation to how you want to be perceived. From this baseline we explore physical and psychological barriers that you might be facing and map out ways of overcoming them.

## THE JOURNEY OUT

**Learning how to make your body and your voice work for you starts with physical tools and habits. And it results in perceived confidence, competence and likeability. Then, we strategize effectiveness: Body Language, Paralanguage and Story Telling.**

## TESTING & TUNING

Test » operation » test » exit. We assess the progress twice: at the end of the content, and about two months after. We do this because we do not believe in lucky charms: we want the transformation to be lasting.
